

Justification of the RHNH¹

Question	<i>Can it be that irrational behaviour of the collective (holocaust, war, terrorism, destructive technology) is owed to traumatic excitation backgrounds?</i>	
Answer	<i>Yes! Proof of repressed natural history up to the middle of the Trecento: Clearing up should initiate understanding for the hotchpotching of human & natural history.</i>	
Conclusion sequence	Source	Event
5	Geological findings, no artefacts whatever	No human reports; but Dinosaurs Extinction proves variable gravitation.
4	OT: "Deluge" report	Topping up of the Oceans with Saltwater from the continental shelves up to today's level destroys developments remaining unknown.
3	Greek & Mesopotamian reports about the Venus events	Athena = Venus issues from Zeus = Jupiter
2	OT: Exodus catastrophes; cuneiform & hieroglyphic sources about Istar = Isis = Astarte = Athena &c	The same "deity" (Venus comet) causes heaviest global catastrophes
1	The logic inherent to the Joshua Event irrefutability proves the clear text truth content of the report.	Sun & Moon move erratically simultaneously with Venus ("deity") in the sky, who flings great masses of meteorites down to earth.
7	Greek theomachy reports	Recovery from Venus catastrophe
8	OT ("Prophets"); Mesopotamian, Egyptian, Indian reports, pre SchizoTime maps of the world	Venus-Mars events, Mars catastrophes; followed by the budding of the 1st world civilizations & colonization
6	CCR (Canopus decree)	1st documented changed length of the year & ecliptic
11	SchizoTime with scanty text remains (evt late theomachy reports), archaeologically well (ruins) attested	Catastrophes of a new series with Venus & Mercury as agents destroy the old cultures
Heaviest repression barrier !		
"The Middle Ages are a projection space for idealizations, wishful thinking, & delusions" ²		
10	Last catastrophe in the middle of the Trecento (1348 XC outbreak of the "Black Death") = LGJ (Last Great Jolt)	Beginnings of the "1st XC millennium" timeline based on impossible astronomical retrocalculations
12	Beginnings of repression by anthropomorphising (on the stage) of the Venus-Mercury events	Development of the philosophies, the religions, & then the sciences
9	GCR circumstances	Correcting the 2nd documented changed length of the year & ecliptic
13	Human & natural historiography from the Quattrocento	Hotchpotching of history & physics by the PRS conglomerate still going on today.

History can **ONLY** be described as a **singular chain of singular events** – not arbitrarily now one way & then again "totally different"! Where the sequence of events remains partially or completely unknown, there **cannot** be parallel variants (as in SF)! This is important to be remembered because **neither** conventional teaching **nor** so-called chronology revisions have ever delivered the questions & explanations – moreover supported by predicted phenomena! – as did the RHNH: Fomenko *et al*'s designs³ as well as the "300-Phantom Years" grotesqueries of Illig &c³, whose time-hopping *Zeitensprünge* **each & all principally** fail because (a) they deny the LGJ & (2) hold on to the X-figure as a historical human deity & the XC epoch figure.

¹ RHNH = Reconstruction of Human & Natural History
 PRS(-conglomerate) = entirety of the collective thinking systems: ie the Philosophies, Religions & [exo- & esoteric] sciences, ruled by the CREDO = "What is OBSERVED is NOT to be PERCEIVED, & what is to be BELIEVED is NOT to be OBSERVED"
 XC = Christian Calendar
 UC = Universal Calendar (its epoch the spring equinox of 1945 XC)
 GCR = Gregorian Calendar Reform -370/-363 UC (1577/1582 AD)
 CCR = Canopus Calendar Reform (=the "Julian" reform), following the RHNH around -950 UC (1000 XC)
 LGJ = Last Great Jolt (the last one ending a series of cataclysms in the middle of the Trecento, caused by a repositioning of earth)
 EVU = Electric Vortex Universe
