

**Repression by the Collective of interplanetary
cataclysms in historical times up to 650 years ago
is the cause of its Irrational Behaviour in Holocaust,
War, Terrorism, & Destructive Technology:**

**But the processes of civilization can only be freed
from this irrational behaviour by bringing the
traumatic excitation background into the collective's
consciousness.**

**However, as with any neurotic it is useless to instruct the
collective about its affliction — a healing process can only
succeed when left to self-enlightenment: It cannot, therefore,
be left to the PRS-conglomerate's institutions, which clearly
have become installed solely to repress observed truth!**

**It is necessary, therefore, to find strategies able to circumvent
the involved philosophical, religious, & scientific repression
methods & search for knowledge distribution processes
immune against the attacks by the PRS-conglomerate.**

What, then, would such strategies be?
