

Addendum to the *PAF-Poster regarding "Chronology Criticism" & "ZeitenSprünge" Events as Reactionary Trends against the RHNH*

Mechanisms of CoR

Discussions in the de.sci-NewsGroups particularly concerning astronomy, history, physics & pointed to **3 decisive processes** responsible for the **Collective Repression** (through the PRS-Conglomerate) of the historical catastrophic excitation background for the last 6 ½ centuries:

1. **"Quantifying description perverts natural knowledge to natural sciences"**

Cf in contrast the *qualifying* text to the EVU, *New Elementary Perceptions in Physics, Chemistry and Celestial Mechanics*, in www.paf.li/perceptions.htm.

2. **"Quantifying", ie XC-Chronologising, perverts historical knowledge to "historiography", ie to historical sciences**

Cf, in contrast, eg "Justification of the RHNH" in www.paf.li/11%20Justification.pdf.

3. **Quantifying ("mathematising") as a "language" for the description of factual knowledge (observation) produces "theories" ("explanations") which, though generating the impression of truthfulness, because of dismissing the qualities produce hotchpotch information &, furthermore, leave the escape mechanism of never claiming veracity. In addition, theories support actualistic prejudice because mere mathematics is neither able to discover events not observed today nor, in fact, can it even discover the nature of what is being measured.**

RHNH = Reconstruction of Human & Natural History

PRS(-Conglomerate) = entirety of the collective thinking systems, ie the Philosophies, Religions & [exo- & esoteric] sciences (repression machinery)

EVU = Electric Vortex Universe in

XC = Christian Calendar

CoR = Collective Repression (resulting in irrational behaviour of the collective in holocaust, war, terrorism & destructive technology)
